### Our Network

Now, with 22 branches covering an expanding footprint across the UK, we are improving stock capacity throughout our network. We have introduced mezzanine floors into ten of the original fourteen branches and increased the number of part numbers we carry, bringing more stock closer to our customers.

The Digraph network will grow to over 80 branches, strategically located to provide service the length and breadth of the country, providing a truly nationwide service. By being closer to our customers we will reduce downtime and increase workshop efficiency.
